WORK EXPERIENCE

Ssemco Technologies, USA — Senior Laravel Developer

JUNE 2020 - PRESENT ~ 2yrs 7mon

Managing and developing the software team.

Introduced the use of domain driven development to the software team.

Led development on two mid-sized long term projects.

Ssemco Technologies, USA — Laravel Developer

FEBRUARY 2017 - JUNE 2020 ~ 3yrs 4mon

Solved a data retrieval and presentation problem in a classified project that was delaying its launch. Was immediately rewarded with a salary bonus.

Always prioritized client requests so that more urgent bugs or important features are fixed or implemented first.

Started writing tests for a project that hardly had any tests and boosted developer confidence in shipping of features.

Improved system performance of a medium-sized yet complex project by 30% using caching and query optimization techniques.

Guided, coached and mentored two junior developers.

Makerere University Business School, Uganda — Teaching Assistant

AUGUST 2011 - MARCH 2017 ~ 5yrs 6mos

Facilitated courses on Web Development, SQL & Database Administration, and Information Systems Development.

Examined over 3000 students on courses I facilitated.

Guided and mentored one junior teaching assistant who confidently stepped into my shoes when I left.

Developed a course assessment filing application to reduce expenses in filing of students' semester results.

Proposed and worked in a team to document new programmes that would have students be taught skills and knowledge usable in the software industry.

CAREER OBJECTIVE

Laravel Developer with 6 years experience in the core stages of project development. Excited to work on projects that would solidify and expand my skill set.
